Doweled Doug Fir ACQ: Mortised Posts & Tenoned Rails

We have partnered with a California mill to produce Doweled Doug Fir Post & Rail Fencing. Our posts are milled out of the tops of Coastal Doug Fir trees from larger lumber operations, tops that are too small to produce lumber. Below is the standard sizing of the Posts & Rails:

Rails – 2” tenon standard (special order 2-1/2” tenon available on 3-1/2” and 4” rails)

Posts – Holes 2-1/8” standard (special order 2-5/8” hole sizing available)

Standard spacing 1st hole 6” o.c. from top of post, 2nd and/or 3rd hole 16” o.c.

(special order spacing available w/setup fee)
